Saptarishis Astrologer's Desk

Saptarishis Astrologer's Desk (<https://saptarishis.net>) is the BEST Vedic Astrology App in the World. Our App is based on deep research of many years into various tools and techniques of Vedic Astrology. We have included many of Saptarishis Astrology's proprietary techniques in our app. Our App also includes many **new techniques** which are not available in any other software. It also includes **correct calculations** of many concepts and dashas which has been a shortcoming of many professional astrology software. It also has many other rare & well researched techniques which we received from great Rishis, Saints and Pundits. We hope our App will benefit both Professional Astrologers and advance students of Vedic Astrology.

Our App uses **Cloud computing** for providing you ease of access across **multiple platforms**. You can use our App on Windows, Mac, iOS, iPhone, Android devices and any other internet enabled device using the latest web browser. You don't need to install software packages on your device. You

may switch different devices and use the same login credentials to access your data. Lot of times Astrologer's like you lose your most important data i.e. your client chart database as their phone dies or windows machine crashes. We use cloud computing to store your Charts data securely on our secure servers.

Please note this is a **subscription-based App**. You are required to create an account within the app. You can sign up for a monthly or yearly plan to gain access to all great features of our app. You just need one active subscription to use all features of the app (unlike other apps which charge you by module). We support **multiple payment options** and we accept payments in various currencies.
